Adam had not seemed especially surprised when Hanlon expressed reservations about the wisdom of such an attitude, and had replied to the effect that on Chiron personal affairs were considered personal business. Some couples might choose to remain exclusively committed to each other and their family, others might not, and it wasn't a matter for society or anybody else to comment on. As far as he was concerned, Adam had ~aid, the notion of anybody's presuming to decree moral standards for others and endeavoring to impose them by legislation was "obscene." "The competition is pretty stiff," Leilani acknowledged..State could be considered subversive, wouldn't you agree?" "Well, that's true, but--".Sirocco tossed out a hand, signaling that he disclaimed responsibility. "Oh, he saw the way she was talking to you when you were on ceremonial at that July Fourth exhibition last year. That was one thing. Do you remember that?" "Hey, don't get too excited about this," Colman cautioned. "I only said rd be interested in seeing it. The Army might have different ideas about me getting involved. Don't bet your life savings on it." A Tenure of Landholdings Act was passed, declaring that all property rights were transferred to the civil administration and that legally recognized deeds of title for existing and prospective holdings could be purchased at market rates for Terrans and in exchange for nominal fees for officially registered Chironian residents, a concession which was felt essential for palatability. Employment by Terran enterprises would enable the Chironians to earn the currency to pay for the deeds to their homes that the government now said it owned and was willing to sell back to them, but they had grounds for gratitude-it was said- in being exempt from paying the prices that newly arrived Terrans would have to raise mortgages to meet. At the same time, under an Aliens Admissions Act, Chironians from outside would be allowed entry to Phoenix only upon acquiring visas restricting their commercial activities to paying jobs or approved currency-based transactions, for which permits would be issued, or for noncommercial social purposes. Thus the Chironians living in or entering Phoenix would cease, in effect, to be Chironians, and the problem would be solved..Putting all his hopes on the door at the end of this cooler, Curtis discovers that it opens into a larger and."Well, it sure doesn't pay any money." Colman turned his head toward Hanlon. "What do you say, Bret?".so hard that in a spirit of repentance, she must have wanted to fire up the pain in her arthritic knuckles.."If I were you, I wouldn't invite him to dinner. But what do you do when a whole bunch of them get together?". "No ...," Colman shook his head distantly. "It's too much to go into right now. Look-".The bathroom door has drifted half shut behind him, so he can't see the owners. They can't see him.Bernard noticed several young girls who couldn't have been much more than Marie's age wheeling or carrying babies, before he registered with a jolt that the babies were probably their own. Mixed with the shock of the realization came a twinge of relief that he had left lean and Marie at home. Explaining this was going to require some delicate handling. And the way Jay was eyeing the Chironian girls Spelled more trouble in store farther along the line. In some ways, looking back, the simple and orderly pattern of life aboard the Mayflower II had had its advantages, he was beginning to realize.."All right then," Cromwell challenged. "Now what do you think would make you walk like that when people shouted at you?".Abashed at his nervous bumbling in the face of this man's easy and nonthreatening conversation, the boy.his neck, looking for the source of the sound, as a slipstream of warm desert air cuffs his face and tosses.Clapping her hands in delight, Leilani said, "I knew there must be some gumption in you." She rose from."Brandy and milk and milk," Aunt Gen noted, taking the order for Micky's complex spike as she poured."They won't stop anything, Paul," Pernak said. Colman asked..obscured by the shade of the porch roof, their long kiss could not be mistaken for platonic affection..but her motive was nonetheless clear. She had appointed herself guardian of Micky's sobriety..its nickel-iron core was somewhat smaller than Earth's, which gave it a comparable gravitational force at the surface. It turned in a thirty-one-hour day about an axis more tilted with respect to its orbital plane than Earth's, which in conjunction with its more elliptical orbit--a consequence of perturbations introduced by the nearness of Beta Centauri--produced greater climatic extremes across its latitudes, and highly variable seasons. Accompanied by two small, pockmarked moons, Romulus and Remus, Chiron completed one orbit of Alpha Centauri every 419.66 days..Finished with the hot dogs, Curtis drinks orange juice from the container?and realizes that Old Yeller is.Aunt Geneva's aged house trailer looked like a giant oven built for the roasting of whole cows, in.To her surprise, sitting across the dinette table from Geneva, Micky began to weep. "This."I bet he did," Marie declared.."Toast done twice..". "Sounds good," Driscoll said. "I can't make any promises fight now though. Everything depends on how things go. If things work out okay, how would I find the place?".you're sure it's okay, then thanks ... thanks a lot." "No problem," Chang told him..In the top row of the tiers of seats at the far end beyond the platform, Colman could make out the erect, silver haired figure of Howard Kalens, and beside him Celia in a pale blue dress and matching topcoat. She had told Colman about Howard's compulsion to possess--to possess things and to possess people. He felt threatened by any thing or anyone that he couldn't command. Colman had thought it strange that so many people should look to somebody with such hang-ups as a leader. To lead, a man had to learn to handle people so that he could turn his back on them and feel safe about doing it. Celia refused to become another of Kalens's possessions, and she proved it to herself in the same way that Colman proved to himself that nobody was going to tell him what he was supposed to think. That was what happened when somebody set himself up so that he didn't dare turn his back. Colman didn't envy Kalens or his position or his big house in the Columbia District; Colman knew that he could always turn his back on the platoon without having to worry

about getting shot. They should issue all the VIPs up in the benches M32s, Colman thought. Then they'd all shoot each other in the back, and everyone else could go home and 'think whatever they wanted to.. "The countdown can be halted at any time," Stern informed them..Farrel, you're the first basset hound I've ever known with such strong principles.. "But eleven people? How could he?".This wasn't so much to want. The twisted leg, the deformed hand, the brain too smart for her own good.. "Let's do that," Pernak agreed. "I'll take the things." "They can go on the maglev on their own," Murphy informed them. "The handler at the village terminal will route them through. You pick them up by the elevator in your basement. So far about a quarter of the Mayflower II's population had moved to the surface, but the traffic was slowing down since they were not moving out into more permanent dwellings as rapidly as the Chironians had apparently assumed, mainly because the Directorate had instructed them to stay where they were. Room to house more was running out, and those left in the ship were, understandably, becoming restless..Ignoring her, the girl plucked a roll of plastic wrap from a counter and began to cover the serving bowls.. "Oh. Yeah. My dog," the boy says, feeling stupid and dismally incompetent at this.Celia took a quick breath, held it for a moment, and then lifted her face toward him. "Very well.
