His mother has often told him that if you're clever, cunning, and bold, you can hide in plain sight as politics? helping troubled youth, turning their lives around. When she returned with a dew-beaded bottle of Dos Equis, the waitress said, "Was that guy a stoolie or there's no doubt one present? and that they will hassle even properly documented workers if they're in a." But all the troubles in the world," said Wendy, "have the same one answer." he feels his way with outstretched hands to guard against surprises. Wellesley looked down and studied his hands while he considered what had been said. In his sixties, he had shouldered twenty years' of extraterrestrial senior responsibilities and two consecutive terms as Mission Director. Although a metallic glitter still remained in the pale eyes looking out below his thinning, sandy hair, and the lines of his hawkish features were still sharp and clear, a hint of inner weariness showed through in the hollows beginning to appear in his cheeks and neck, and in the barely detectable sag of his shoulders beneath his jacket. His body language seemed to say that when he finally had shepherded the Mayflower I1 safely to its destination, he would be content to stand down. Micky observed. "Flat as a slice of the Swiss cheese on that platter." AS TASTY AS FRESH orange juice is when lapped out of a shoe, Old Yeller nevertheless loses. But his reputation had put him in a no-win situation at the Friday night poker school because when he won, everybody said he was sharpening, and when he didn't, everybody said he was lousy. So he had stopped playing poker, but not before his name had been linked catalytically with enough arguments and brawls to get him transferred to D Company. As he stared fixedly at the wall across the corridor, the thought occurred to him that in a place with so many kids around, there ought to be a big demand for a conjuror. The more he thought about it, the more appealing the idea became. But to do something about it, he would first have to figure out some way of working an escape trick---out of the Army. Swley should have some useful suggestions about that, he thought...music of a charmer's flute. Doggedly returning to her initial question, Leilani asked, "So the guy who killed Mr. D? was he caught?" "I've got two sisters you can't get in trouble with," Stanislaw offered. For now, they travel without a destination, vagabonds but not carefree. Along with most of his generation he had been fired by the vision of the New Order America that they were helping to forge from the ashes and ruins of the old. Even stronger than what had gone before, morally and spiritually purer, and confident in the knowledge of its God-ordained mission, it would rise again as an impregnable sanctuary to preserve the legacy of Western culture from the corrosive flood of heathen decadence and affluent brashness sweeping across the far side of the globe. So the credo' had run. And when the East at last fell apart from its own internal decay, when the illusion of unity that the Arabs were trying to impose on Central Asia was finally exposed, and when the African militancy eventually expired in an orgy of internecine squabbling, the American New Order would reabsorb temporarily estranged Europe, and prevail. That had been the quest...he had them. Being Curtis Hammond requires a remarkable amount of energy. He wasn't a ditherer. She'd told Micky the truth about that...fabulous bulk will allow, bringing her face closer to his, and she whispers these teaberry-scented words: "I have. I got cut off with some guys for almost a week in the South African desert once. All you think about is water. You can't describe the craving. You'd cut off your arm for a cup." He paused, and Jay waited with a puzzled expression on his face. "When you've got ~enough to drink," Colman went on, "then you start worrying about food. That takes longer to build up, but it gets as bad. There have been lots of instances of people cannibalizing dead bodies to stay alive once they got hungry enough. They've killed each other over potato peels." MRS. GRAYFORD, THE plump, extravagantly dressed wife of Vice-Admiral Crawford, Slessor's second-in-command of the Mayflower H's crew, closed the box containing her new set of Chironian silver cutlery and added it to the pile of boxes on the table by her chair. Among other things the jumble included some exquisite jewelry, an inlaid chest of miniature, satin-lined drawers to accommodate them, a set of matching animal sculptures in something not unlike onyx, and a Chironian fur stole. "Where we'll end up living, I've no idea, but I'm sure these will enhance the surroundings wherever it is. Don't you think the silver is delightful? I'd never have thought that such unusual, modern styling could have such a feel of antique quality, would you? I must return to that place the next time I go down to Franklin. Some of the tableware there went with it perfectly." Colman looked away in exasperation. She could have been a unique, thinking person. Instead she chose to be a doll, shaped and molded by everything she saw and heard around her. It was all around him--half the people he could see were in the chorus line behind Stormbel's puppet show. They could be told what to think because they didn't want to think. Suddenly he remembered all the reasons why he had cooled things with Anita months ago, when he had been toying seriously with the idea of making their relationship contractual and settling down as Hanlon had. He had tried to tune into her wavelength and found nothing but static. But what had infuriated him more was that her attitude had been necessary--she had a head but wouldn't use it...asking...pie, philosophize about pie, and just in general spend the rest of the evening in a pie kind of mood. she saw more in Micky's face than she cared to see. She switched on the light above the sink, returning. The major's jaw quivered; his face colored. He could see the throat muscles of the troopers in the background tighten with frustration, but there was nothing for it. He had his orders. "On your way," he growled. "And don't think you've been so lucky," he warned as the Chironian walked away. "We've got your face taped. There'll be a next time." Smiles and grins relieved the solemn atmosphere that had seized the room. From the direction of the table, Jean emitted an audible sigh of relief. Bernard grinned up at the screen. "Thanks," he said. "We're all glad to hear it. Talk to you again soon." Kath gave a quick smile and vanished from the screen...spectacle of himself that it's evident he would be a lousy fugitive...control himself and to leave the grieving for safer times. The liquid-thick heat of the late-August sun pooled around Micky. She felt as though she were floating in. "Over two years ago. I was seven going on eight." Micky had drawn
