For the rest of his life, Medra kept the doors of the Great House on Roke. The garden door that opened out upon the Knoll was long called Medra's Gate, even after much else had changed in that house as the centuries passed through it. And still the ninth Master of Roke is the Doorkeeper..monster emptying its lungs of air, the light reappeared, the girl pushed open the door. A real.would rub out its king with half a spell. But he let Losen act the master. The pirate was a blanket on the plank bed. A few people were sitting there. I wanted to go inside and ask.On the first of his voyages of finding, Medra, or Tern as he was called, sailed northward up the Inmost Sea to Orrimy, where he had been some years before. There were people of the Hand there whom he trusted. One of them was a man called Crow, a wealthy recluse, who had no gift of magic but a great passion for what was written, for books of lore and history. It was Crow who had, as he said, stuck Tern's nose into a book till he could read it. "Illiterate wizards are the curse of Earthsea!" he cried. "Ignorant power is a bane!" Crow was a strange man, willful, arrogant, obstinate, and, in defense of his passion, brave. He had defied Losen's power, years before, going to the Port of Havnor in disguise and coming away with four books from an ancient royal library. He had just obtained, and was vastly proud of, an arcane treatise from Way concerning quicksilver. "Got that from under Losen's nose too," he said to Tern. "Come have a look at it! It belonged to a famous wizard." "Crafty men need to stick together," he said. "Men who have no art at all, nothing but wealth-they." "Study with Master Hemlock?" said Diamond, his voice up half an octave..to obey me!".He came through the halls and stone corridors to the inmost place, the marble-paved courtyard of the fountain, where the tree Elehal had planted now stood tall, its berries reddening..she slid down in his arms. He tried to keep her head at least from the mud of the track. Her limbs.Again he paused. All at once he looked straight at Otter, who froze in terror thinking the wizard had caught him watching his mind. Gelluk stared at him a while with that curious half-keen, half-unseeing gaze, smiling. "Little Medra!" he said, as if just discovering he was there. He patted Otter's shoulder. "I know you have the gift of finding what's hidden. Quite a great gift, were it suitably trained. Have no fear, my son. I know why you led my servants only to the little lode, playing and delaying. But now that I've come, you serve me, and have nothing to be afraid of. And there's no use trying to conceal anything from me, is there? The wise child loves his father and obeys him, and the father rewards him as he deserves." He leaned very close, as he liked to do, and said gently, confidentially, "I'm sure you can find the great lode"..unnoticed, when the wizard came..Archipelago came to be. "The Bones of the Earth" is about the wizards who taught the wizard who."Nobody can do more than that," said Rose..people there would be - I don't know. Of course they're mostly just boys when they go there. But I.cobbled, he heard voices..A chill ran through her. The water ran cold. Gathering herself together, her limbs still soft and loose, she looked up and saw on the bank above her the black figure of a man..stacked by the roaster tower bringing him a memory of the work yards at home, the fragrance of new."Is he curing the cattle?" she asked..When she said nothing, and some time had passed, he said, "In the shadow of these trees is no.She lay awake in the little house, feeling the air stifling and the ceiling pressing down on her..My lord," said one of them with a fine, dark face and a wizard's oaken staff, "we do trust you, and therefore ask you to let the witch go, and peace return..nine Masters," he began..He traveled far in the Archipelago, even out into the East Reach. He never went to the same town."I think I've found my little finder," said Gelluk. His voice was deep and soft, like the notes of a viol. "Sleeping in the sunshine, like one whose work has been well done. So you've sent them digging for the Red Mother, have you? Did you know the Red Mother before you came here? Are you a courtier of the King? Here, now, there's no need for ropes and knots." Where he stood, with a flick of his finger, he untied Otter's wrists, and the gagging kerchief fell loose.."Look," she said, halting. "Medra, look..You'll do better away from the ships, all the fighting and raiding. The King's working the old.Early looked at him once. Hound's mouth snapped shut and stayed shut..Enlad.."It was a hundred and twenty-seven years ago. I was thirty then. The expedition. . . I was.danced on the crimson pillars. But Otter could not read the book or the runes. He had never."Where old Early went with the great fleet. I see. Friends there. Well, I know one of the ships is back, because I saw one of her men, down the way, in the tavern. I'll go ask about. Find out if they got to Roke and what happened there. What I can tell you is that it seems old Early is late coming home. Hmn, hmn," he went, pleased with his joke. "Late coming home," he repeated, and got up. He looked at Otter, who was not much to look at. "Rest easy," he said, and went off..hawk's face, she thought. She held still, listening.."Come up to the house," the Patterner said, and he set out water and food for the Namer..bit impatient with the singing and the trinkets. "There are more important things for you to do..his conscience as a wizard told him he could put a hex on her, a curse woven right into her beams."But," said Dragonfly and stopped, caught by the argument.
